

2025 Behind-the-meter Energy Storage Projects

The Behind-the-Meter (BTM) Energy Storage Inverter market is experiencing robust growth, projected to reach a market size of \$17.71 billion in 2025 and exhibiting a Compound ...

Key Findings Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of ...

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy ...

The market size of behind-the-meter stationary battery storage reached USD 42.3 billion in 2024 and is set to grow at a 19.5% CAGR from 2025 to 2034, driven by increasing demand for ...

As we look ahead to 2025, the North American energy storage sector is poised for another transformative year. Nationwide, we're seeing a robust project pipeline, advancements ...

This renders battery storage paired with solar PV one of the most competitive new sources of electricity, including compared with coal and natural gas. The cost cuts also make stand-alone ...
