

## 4kWh portable power bank

Does a power bank have wireless charging?

Some larger power banks are equipped with wireless charging capability. On this list, both the BioLite Charge 100 Max and Goal Zero Sherpa 100 PD come with a wireless charging pad that can deliver up to 15W of power to compatible devices. In general, wireless charging from a power bank will be slower than using a cable.

Which power bank is best for outdoor use?

If you plan to use your power bank for outdoor applications such as hunting, backpacking, and off-roading, we recommend one built to withstand rugged use. On this list, the Nestout 15,000mAh Outdoor Battery, Dark Energy Poseidon Pro 10200, and Wuben Lightok X3 Owl EDC Flashlight are all rated to withstand getting wet.

Is Ugreen 145W a good power bank?

The easy-to-read LED display allowed us to keep accurate tabs on its battery life. Its rate of power delivery is right up there with the best banks on the market, but the bank itself is fairly low to charge. Unlike many of the smaller banks on this list, the UGREEN 145W power bank is potent enough to support a laptop.

Is the OtterBox fast charge a good power bank?

The 15k version of the Otterbox Fast Charge (\$45) is a nice middle ground between common power bank sizes. We expect it could charge a newer iPhone three or four times, a meaningful improvement over the 10k version. This unassuming powerhouse came to be one of our tester's favorite power banks by accident.

In the global energy storage shipment rankings for the first half of 2025, our group secured second place in both energy storage battery shipments and power energy storage shipments.

The Goal Zero Yeti Pro 4000 is a passive 4kWh LiFePO4 system with fast charge, expansion capabilities, and fantastic ports. All around, this thing is massive, with massive output.
