

What is a containerised generator?

The containerised generators are suited for mining and construction applications and have comprehensive back-up sales, parts and service support through the PR Power Australia wide network. Not sure what you're looking for? PR Power's premium range of containerised generators are powered by genuine Perkins & Cummins diesel engines.

Are containerised generators self-contained?

Our containerised generators run within a standard ISO shipping container and are completely self-contained.

Why Choose a Containerised Generator?

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable, such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type, noise attenuation, and space-saving layout.

Are containerised gensets backed by a warranty?

All containerised gensets are fully backed by generous warranties for peace of mind. Call 1300 998 647 or request a custom quote below. Our team is ready to scope, build and deploy the power system your project demands. Get The Right Advice.

How much energy does a containerized generator consume?

It consumes 182.2 L/h at 75% load (50Hz) and 189.8 L/h at 75% load (60Hz), making it one of the most competitive in terms of operation and maintenance costs. The inclusion of a variable speed remote cooling system also contributes to energy consumption optimization. What features enhance the safety and protection of these containerized generators?

For years we have specialized in super reliable quality off grid systems, and a recent project we did inspired us to offer a new range of Portable Off Grid Containers. The project entailed a ...

At Modulate Group, we specialise in designing customised shipping container solutions to support the unique challenges of Australia's energy landscape, from renewable ...

Australian power generation container manufacturer

Australian Power Equipment provide supply low, medium and high voltage equipment to clients across the Power Generation, Infrastructure and Resources industry. We provide new, near ...
