

Base station system communication principle

The ESB-series outdoor base station system utilizes solar energy and diesel engines to achieve uninterrupted off grid power supply. Solar power generation is the use of photovoltaic panels to ...

OverviewComputer networkingLand surveyingWireless communicationsSee alsoIn the area of wireless computer networking, a base station is a radio receiver/transmitter that serves as the hub of the local wireless network, and may also be the gateway between a wired network and the wireless network. It typically consists of a low-power transmitter and wireless router.
