

Battery cabinet handling system

How can battery handling equipment help a forklift?

Keep scrolling to explore the Battery Handling Equipment that can boost safety, enhance efficiency, and improve throughput for your whole operation -- reducing time your forklifts spend in the battery room so they can go to work in the aisles. For help outfitting your forklift battery room, call the Solus Group sales team at 314-696-0200.

Do you need a conveyor / overhead hoist for a forklift battery?

The Occupational Safety and Health Administration (OSHA) requires employers to provide "a conveyor, overhead hoist, or equivalent material handling equipment" for handling forklift batteries, and battery changing equipment from BHS complies with this and other relevant OSHA standards.

What are the benefits of BHS battery handling equipment?

The right battery handling equipment can greatly improve productivity while limiting the manual labor associated with common battery room tasks. The labor-saving benefits of BHS battery handling equipment boost efficiency, but they also create a safer, more ergonomic battery room.

Does CBH have a battery racking system?

CBH's racking systems come with an integrated battery safety stop and optional removable drip trays, constructed from lightweight and flexible polyethylene. CBH is the only manufacturer to provide a unique at-the-source ventilation system that is fully integrated into the battery rack system.

How do I choose a battery storage cabinet?

Regulatory Compliance: Choose a cabinet that meets safety standards for Class 9 Dangerous Goods. **Durability:** Look for a heavy-duty lithium battery storage case designed for long-term use. **Ventilation Needs:** If charging is required, ensure the cabinet includes an integrated cooling system.

What is a battery racking system?

The Battery Racking System is the foundation for all well-engineered battery changing rooms. CBH's racking systems come with an integrated battery safety stop and optional removable drip trays, constructed from lightweight and flexible polyethylene.
