

Bosnia and Herzegovina Energy Storage Power Supply Procurement

How is energy used in Bosnia and Herzegovina?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

Does Bosnia and Herzegovina provide security of electricity supply statements?

Bosnia and Herzegovina is not providing the Security of Electricity Supply Statements to the Secretariat despite its obligation under Article 29 of the Treaty.

Why is Bosnia & Herzegovina's energy sector so vulnerable?

This delay persists despite the ENTSO-E cybersecurity report from 2022, which identified Bosnia and Herzegovina's energy sector as one of the most vulnerable in the region due to outdated infrastructure and insufficient cybersecurity investments.

How many companies operate the gas Transmission system in Bosnia and Herzegovina?

Three companies in Bosnia Herzegovina operate the gas transmission system. In the Federation of Bosnia and Herzegovina, one company operates the transmission network as an exclusive and sole task in line with the Decree on Organisation and Regulation of the Gas Sector, but there is no legal basis for unbundling under the Third Energy Package.

Is there a PEI project in Bosnia and Herzegovina?

There is no PEI project in the territory of Bosnia and Herzegovina, chosen under the procedure launched in 2024 for the Energy Community which relates to gas or hydrogen.

Are energy measures subject to state aid assessment in Bosnia & Herzegovina?

The State Aid Council (SAC) and its secretariat have been very active in the last reporting periods. However, in the current reporting period, no measures in the energy sector have been subject to State aid assessment in Bosnia and Herzegovina.
