

# British solar panel manufacturer agent

Who are UKSOL solar panels?

UKSOL is a British family-owned solar panel producer specialising in the design and manufacturing of residential and commercial solar panels. The company has made a name for itself by offering good quality solar PV panels at competitive prices.

Where are solar panels made?

It's true that most solar panels across the world are made in China, but there are plenty of British and European-based companies involved in the process too. Choosing the right solar panel manufacturer, as well as the right sized system, can seem daunting. That's where we want to help.

Why should you choose a British Solar brand?

Customers are increasingly aware of solar supply chain issues, including links to modern slavery. Offering a British brand with ethical and transparent procurement practices sets you apart, providing customers with high-quality products and confidence in your commitment to integrity.

Are UKSOL solar panels MCS & T&V certified?

UKSOL solar panels are MCS and T&V-certified, ensuring compliance with strict quality, safety, and performance standards. These certifications guarantee reliability, efficiency, and regulatory approval, making UKSOL panels a trusted choice for sustainable energy projects.

Are UKSOL solar panels ethical?

UKSOL solar panels are ethically manufactured, ensuring fair work practices, environmental responsibility, and full supply chain transparency. With rigorous third-party audits and compliance with Sedex SMETA standards, UKSOL upholds the highest ethical standards in solar production.

Who are REC Solar panels?

REC is a solar panel manufacturer based in Norway but with a presence in the UK market too. Their panels are known for being high quality and with high power outputs. REC manufactures two main types of solar panels - their premium Alpha range and the TwinPeak 5.
