

# Brunei communication base station solar panel construction

Where will a solar plant occupy a remediated landfill in Brunei?

The solar plant will occupy a 33.3-hectare remediated landfill in Kampong Belimbing, a village in the Brunei-Muara district of northern Brunei. The project already has a land lease agreement with the government.

What is Brunei Darussalam's largest solar project?

This milestone represents Brunei Darussalam's largest government-led solar project to date and the first large-scale solar initiative under a Public-Private Partnership (PPP). It underscores the nation's commitment to diversifying its energy mix and pursuing low-carbon development as part of its decarbonisation agenda.

How much solar power does Brunei have?

According to the International Renewable Energy Agency (IRENA), Brunei's cumulative installed solar capacity stood at 5 MW at the end of 2024, unchanged since 2021. Brunei aims to reach 30% renewable energy in its electricity mix by 2035. This content is protected by copyright and may not be reused.

What is Brunei's largest national solar project?

KUALA LUMPUR: Solarvest Holdings Bhd's subsidiary Atlantic Blue Sdn Bhd has secured Brunei's largest national solar project, with a generation capacity of 30 megawatts (MW). The project will be developed through a joint venture company, Seri Suria Power (B) Sdn Bhd, in partnership with Serikandi Oilfield Services Sdn Bhd and Khazanah Satu Sdn Bhd.

Why is Brunei launching a solarvest project?

Solarvest executive director and group chief strategy officer Leon Liew Chee Ing said the project reflects Brunei's strong commitment to a cleaner, more sustainable energy future, given the nation's abundance of fossil fuels.

Will Brunei's largest solar project be a public-private partnership?

The project already has a land lease agreement with the government. Once operational, the facility will be Brunei's largest solar installation and the country's first developed under a public-private partnership.
