What is a Delta inverter system?

In regions with AC utility challenges, the inverter system protects the auxiliary AC-powered infrastructure from AC mains fluctuations. In addition, the inverter system offers new opportunities for energy savings by providing backup AC power. Delta's inverters complement the InD and OutD systems, providing total site power solutions.

Is Nova electric a DoD approved inverter?

The appearance of U.S. Department of Defense (DoD) visual information does not imply or constitute DoD endorsement. Nova Electric offers pure sinewave DC-AC inverters, power inverters & DC-AC inverter systems to suit any commercial or military application.

How does an inverter system work?

During normal operation, the system can operate in economy mode in which the energy efficiency of the total installation can be optimized. In regions with AC utility challenges, the inverter system protects the auxiliary AC-powered infrastructure from AC mains fluctuations.
