

Estonia's new outdoor power supply market

Where is the electricity market traded in Estonia?

The electricity market is traded in the Estonian region either through the Nord Pool Spot electricity exchange or on the basis of agreements between the producer and the consumer.

Why is Estonia a hub of electricity?

Estonia's grid is an important hub as it is connected to Finland in the north, Russia in the east, Latvia and Lithuania in the south. Electricity is traded on the Nordic power market Nord Pool. In 2014-2016, yearly net imports from Finland were equal to 31-67% of consumption.

How much energy does Estonia use?

Estonia's all-time peak consumption is 1591 MW (in 2021). In 2021 the electricity generated from renewable energy sources was 29.3 %, being 38% of the share of renewable energy in gross final energy consumption. Oil-based fuels, including oil shale and fuel oils, accounted for about 80% of domestic production in 2016.

What is the largest power plant in Estonia?

The largest power complex in the country, Narva Power Plants, consists of the world's two largest oil shale-fired thermal power plants. The complex used to generate about 95% of total power production in Estonia in 2007. Falling to 86% in 2016 and 73% in 2018.

How much wind power does Estonia have?

Total installed wind power was 149 MW at end of 2010 and grew to 303 MW in 2014 and 329 MW in 2016. Record production of wind parks is 279 MW in 2014. Estonia has target of 14% (1.5 TWh) and total renewable electricity 1.9 TWh (17.6%). According to the national Energy Action Plan (2020) planned shares are onshore 9% and offshore 5%.

When did Estonia join the Nord Pool Spot Market?

The direct electrical interconnection with Finland was established in 2006 and was further strengthened by the Estlink 2 interconnector in 2014. Estonia joined the Nord Pool Spot market by 2012, securing its own price area within this regional electricity market.

The report will help the Outdoor Power Supply manufacturers, new entrants, and industry chain related companies in this market with information on the revenues, production, and average ...

According to QYResearch's new survey, global Outdoor Lithium Ion Battery Power Supply market is projected to reach US\$ 12870 million in 2029, increasing from US\$ 1815.8 million in 2022, ...
