

Fiji Solar Energy Storage Solution

Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

How can Fiji improve energy security?

Currently hydro power accounts for a large proportion of Fiji's renewable energy generating. However, scaling up other renewable energy technologies, such as solar, would diversify state's energy mix and thereby help improve energy security.

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

What is EPC solar doing in Fiji?

Indigenous-owned EPC Solar said the projects are part of a pipeline of more than 40 potential installation sites in Fiji which is targeting 100% renewable energy by 2036. The company also plans to expand its operations into New Zealand and then other Pacific nations - islands it says will bear the brunt of climate change and rising sea levels.

Why do organisations in Fiji switch to solar energy?

The answer is simple. Reduce costs, maintain control and look after Fiji. Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.
