

How many photovoltaic base stations are there in North Macedonia

Where is the largest photovoltaic unit in the world?

Until now, the largest photovoltaic unit was in REK Oslomej - 10 MW on an abandoned coal pit. The family of Zoran Zaev, Kovacevski's predecessor and party colleague, has recently founded its second solar plant firm. GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline.

How many MW of photovoltaic power will come online in 2 years?

Kovacevski said he expects the remaining 130 MW on state-owned and private land, awarded through public calls, to come online within two years. Minister of Economy Kreshnik Bekteshi revealed there are photovoltaic facilities with a combined 65.7 MW in capacity currently connected to the grid.

Where is Skopje's new photovoltaic system located?

The new photovoltaic system, the largest in the country, is located southeast of the capital Skopje. GEN-I Skopje, a subsidiary of Slovenia-based GEN-I, won the right to build it in 2019, at a tender for a 50-year lease of state-owned land. Construction started early last year.

As North Macedonia transitions to a more sustainable energy future, the role of solar energy has become increasingly significant. With its abundant sunlight and favorable climate, the country ...
