

# How to install a battery cabinet site

How do I install a battery storage system?

install battery storage systems  
INSTALL YOUR SYSTEM  
The first thing to do when having a battery storage system installed is to ask to see the installer's Clean Energy Council Accredited Installer card. This shows that the installer is qualified to install your battery storage system. The installation process for a battery storage system is usually very straightforward and only takes around 1-2 days (unless you are having a large system installed).

How long does it take to install a battery storage system?

The installation process for a battery storage system is usually very straightforward and only takes around 1-2 days (unless you are having a large system installed).

Where can a battery be installed?

Batteries are usually installed outside or in a utility room (e.g. garage or basement) as they vent hydrogen when charged. Some batteries (usually lithium batteries) are designed to be wall mounted inside a herproof enclosure, though you should check the manufacturer's instructions.

Can I move my battery storage system to a new home?

Under the new standard, you won't be able to reinstall it. Therefore, while it is technically possible to move your battery storage system to a new residence, you should check before you move that you will be able to reinstall the system. If the system is to be moved, it must be carefully dismantled and reinstalled.

Can a battery be installed in a living room?

Batteries cannot be installed in a habitable room, such as a living room or bedroom. However, if you want to install a battery in a non-habitable room, such as a garage, you may need to consider ventilation. These are all factors to consider when choosing a location.

How do I choose a battery storage system?

You choose a system appropriate for your requirements. This will depend on your energy use and tariff, the time of use, the size of your property, and the type of system you are considering. What is the total installed cost of the battery storage system versus the savings it will generate?

Contact your local Authorities Having Jurisdiction (AHJ), to discuss the planned lithium battery installation, including cabinet placement and spacing, as well as total quantities of lithium in the system.
