

Huawei inverter maximum input voltage

Provided that the system is designed with these constraints in mind, high DC/AC ratios will not cause any detrimental effects to the reliability, lifetime or warranty of Huawei SUN2000 inverters.

*1 Inverter max input PV power is 20,000 Wp when long strings are designed and fully connected with SUN2000-450W-P power optimizers. *2 The maximum input voltage is the upper limit of ...

This document provides information about the ModBus protocol used in Huawei inverters, and can be used to regulate and restrict follow-up third-party integration R&D and customizations.

*1. The maximum input voltage is the upper limit of the DC voltage. Any higher input DC voltage would probably damage inverter. *2. Any DC input voltage beyond the operating voltage range ...
