

Huawei s independent energy storage project in Belgium

Where is the battery energy storage project located in Belgium?

Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid operator, and be located next to Engie's gas power plant in Vilvoorde. From pv magazine ESS News site

When will Engie build a battery energy storage system?

On July 5, ENGIE began construction of one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde site in Belgium. This milestone follows the project's construction permit in July 2023 and its selection for capacity remuneration in October 2023.

Will Engie be able to build a new battery plant in Belgium?

Engie described this as "a double success within the CRM framework," which ensures a future for its site in Belgium. The Vilvoorde BESS project will be launched in two phases, with the commissioning of 100 MW of batteries in September 2025, and a further 100 MW in January 2026.
