Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backups as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

How will a new solar power plant help Hungary's power grid?

The new facility supports a growing push to green Hungary's power grid, especially as solar capacity surges. With no moving parts and a rapid response time, batteries like this are designed to stabilize the grid by storing excess solar power and releasing it when demand peaks.

What is the EU CAPEX support scheme in Hungary?

In 2023, the EU approved a EUR1.1 billion (US\$1.2 billion) capex support scheme in Hungary to kickstart the country's large-scale energy storage market.

The Hungarian Energy and Public Utility Regulatory Authority (MEKH) regulates the electricity sector in Hungary, overseeing licensing, price regulation, and consumer protection. MEKH ...

MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW and storage capacity of 80 MWh (2-hour cycle), Hungary's largest ...
