

With regions like Lombardy leading at 1,454 MWh of deployed storage, the country isn't just adopting batteries--it's rewriting Europe's energy playbook. But why should you care?

In response, Italy is prioritizing the development of grid-scale battery energy storage systems (BESS Italy) alongside new industrial and commercial energy storage projects.

Let's face it - when you think of Italian innovation, Ferraris and espresso machines might come to mind first. But here's a plot twist: Italy is quietly becoming Europe's laboratory ...

By implementing large-scale electricity storage facilities, the Italian scheme aspires to reduce energy reliance on fossil fuels and foster a resilient grid, prepared to handle ...

Exide Technologies has signed a new contract with an Italian foundry, specializing in structural castings for the machine and energy sectors, to deliver its Solition Mega Three, a ...

Let's unpack this electrifying trend: Italy added a staggering 1.05 GW/2.63 GWh of energy storage systems in the first half of 2024 alone, marking a 24.6% year-on-year growth in ...

The results of Italy's main grid capacity market auction for 2025, published by Terna, show that energy storage represented 51.1% of the 174 MW of new capacity assigned.

Investing now in smart storage therefore means preparing for a truly "zero emissions" domestic ecosystem, capable of communicating with the grid and with the wallets ...

Brussels, 21 December 2023 The European Commission has approved, under EU State aid rules a EUR17.7 billion Italian scheme to support the construction and operation of a centralised ...

The European Commission has approved, under EU State aid rules a EUR17.7 billion Italian scheme to support the construction and operation of a centralised electricity storage system.

This month we speak to Marco Petrone, CEO of Telis Energy Italy, about the role of Battery Energy Storage Systems (BESS) in fast-tracking the future of energy in Italy. Q: ...

Italian New Energy Storage System
