

Local Energy

What is local energy?

Local Energy is transforming the way industries and communities collaborate and consume energy. Our expertise is agnostic to all kinds of energy sources to power residential and industrial energy grid design and optimization.

Why should you choose local energy?

Local's power sources turn out to be cheaper than the grid on its own! Up to 10% off your current bill. A share of the profits goes back to your local roof owner, which benefits your community. Local Energy's power is more sustainable and reduces strain on our national grid.

Why should I switch to local energy?

Up to 10% off your current bill. A share of the profits goes back to your local roof owner, which benefits your community. Local Energy's power is more sustainable and reduces strain on our national grid. If all of New Zealand switched to Local Energy, we might never face another power outage. For cheaper, greener power in New Zealand.
