

Maldives outdoor power supply sales

What is the main energy supply in Maldives?

These are calculated based on 2011 data for all the countries except for obtaining the SIDS average where 2009 figures are used. The main primary energy supply in Maldives is still dependent on imported fossil fuel(99.9%). Bulk of this imported fuel is diesel and the main energy used for production of electricity and transport.

Are there electrical outlets in Maldives?

No,the electrical outlets in Maldives are different from those in the United States. In Maldives electrical outlets of types C,D,G,J,K &L are used,while the United States has electrical outlets of types A &B. Do I need a travel adapter for Maldives?

What is the supply voltage in the Maldives?

In the Maldives the supply voltage is 230V. If the appliance is a single voltage rated appliance,it will need to operate at the same voltage as the supply voltage of the country i.e. 230V. If this is not the case it should be used alongside a voltage transformer or converter to allow the appliance to work safely and properly.
