

# Melbourne outdoor solar all-in-one machine

What brands of solar panels are available in Melbourne?

Brands that meet our expectations on quality and service include JinkoSolar, Q CELLS and SunPower (for solar panels) and SMA, Fronius and Zeyversolar (for inverters). Solargain has been supplying and installing solar power systems in Melbourne and regional Victorian homes for years.

Are off-grid solar power systems a good idea in Melbourne?

If you plan to stay in Melbourne for a relaxing camping trip and hiking without worrying about how you'll power your stuff, then off-grid solar power systems power generators, in other words, are the way to go. In this article, I'll recommend some top tourist spots in Melbourne and how to power your equipment on those trips.

Who is SolarGain Melbourne?

Solargain Melbourne is located in West Melbourne, Victoria. We supply and install high quality solar power systems in both metro and regional Victoria. We are leaders in the industry with a reputation for excellent service and consultation with solar power customers across Victoria. Read what our customers think of us.

Does Australia have solar power?

Australia really is a sun-burnt country and even though Melbourne is in the south of the continent, there is still plenty of sunshine to justify installing solar power systems in homes and businesses across Victoria. In fact, nearly 20% of households in Victoria are already using solar power to reduce their electricity bills.

Which solar inverter should I buy?

If you are not replacing broken units, we recommend the newer CEC certified version with dual trackers. Now available: SPF6000ES Plus here. This is a multi-functional off-grid solar inverter, integrated with an MPPT (120VDC ~ 430VDC) solar charge controller, a high-frequency pure sine wave inverter with a UPS function module all in one machine.
