

What is a wholesale company in Mexico?

Wholesale companies in Mexico are businesses that buy large quantities of goods from manufacturers or distributors and sell them to retailers, resellers, or other businesses at a lower price. They often operate as intermediaries between the producer and the retailer, facilitating the distribution of goods across the country.

What are the benefits of working with a supplier in Mexico?

However, with patience and due diligence, the reward of working with a supplier in Mexico can be significant. Mexican suppliers offer competitive pricing and high-quality products, and businesses can benefit from the country's strategic location and well-established supply chains.

How do you contact a supplier in Mexico?

Use phone calls: In Mexico, email is typically considered a complementary process, while face-to-face meetings and phone calls are more standard. It's crucial to pick up the phone and call the company when sourcing a supplier.
