

Mobile outdoor power supply in Honduras

What type of power system does Honduras use?

With an installed generation capacity of 1,568 MW (2007), Honduras relies on a thermal-based power system (accounting for nearly two-thirds of its total installed capacity), which is very vulnerable to high and volatile international oil prices. [full citation needed] The generation mix is as follows:

What power plugs and outlets are used in Honduras?

In Honduras, there are two types of power plugs and outlets: Type A and Type B. Both types are used in airports, hotels, restaurants, etc., but they differ in terms of shape. Type A: Type A plugs have two flat prongs on either side of the plug.

What if my electronic device is not compatible with Honduras voltage?

If you're traveling from another country and your electronic device isn't compatible with Honduras voltage, it may not work properly. If you're concerned about how your electronic devices will work in Honduras, it's important to check their voltage and frequency before traveling.
