

Networkable outdoor power supply

What is a networkable power distribution module?

Networkable power distribution module facilitates monitoring, reporting, and control of the supervised DC power supply/charger over the network. It reports diagnostics via Email and Windows Dashboard Alert notifications, greatly reducing system downtime and eliminating unnecessary service calls. Voltage: 115VAC, 60Hz, 4.2A max.

What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

How many volts can a power supply supply provide?

Outputs are individually selectable, providing 12VDC or 5VDC up to 6A and/or 24VDC up to 10A (240W total power) for access control panels, door locks, and ancillary devices. Unit also offers a suite of features that includes overvoltage protection, AC fail supervision, low battery supervision and battery presence supervision.

Does TSI power offer outdoor xups?

TSI Power's Outdoor XUPS series of rugged outdoor uninterruptible power supplies is the ideal way to supply backup power in extreme environments. TSI Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available.

Introducing the Altronix LINQ8PDCB Networkable Power Distribution Module, designed to enhance your power management capabilities. This innovative module allows for seamless ...

The network-enabled power distribution module allows for seamless monitoring, reporting, and management of the supervised DC power supply/charger over a network, enhancing security ...

Description The Altronix eFlow104NKA8DQM power supply efficiently transforms a 120VAC 60Hz input into eight PTC-protected, power-limited outputs, ideal for security and access control ...

Outdoor power and charging solutions have become more versatile and efficient, catering to the needs of a variety of applications and end-users. Learn how to best select the right outdoor ...

Networkable outdoor power supply

It also offers a suite of features that includes fire alarm disconnect, over voltage protection, and low power disconnect which prevents deep discharge of stand-by batteries. Networkable ...

TSI Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available. ...

This durable, outdoor network enclosure comes with a power supply that provides up to 200W (55V DC, 3.6A) of power to industrial equipment, such as PoE switches, injectors and wireless ...

Introducing the Altronix EFLOW104NK8DQP Access Power Supply Charger Kit, a versatile solution for your power needs. This innovative sub-assembly kit transforms a 120VAC 60Hz ...

Maintain a stable power source for your outdoor network. Support both DC and 36-60V solar power inputs, ensuring uninterrupted operation even in remote locations without access to ...
