

New energy battery cabinet upgrade failed

How many batteries are in a 9355 20-30 kVA ups?

The total battery string voltage in a 9355 20-30 kVA UPS is 216V (18 batteries, where each battery is 12V nominal). Two strings fit in each battery shelf of the 9355 20-30 kVA UPS. The two-row tray configuration that is being replaced holds 18 batteries, connected to make one circuit.

Why is my ups not working if I swap batteries?

Swapped the batteries and the faulty one triggers the same error on the other UPS, the non-faulty detects as normal in the original UPS. Time to buy a new battery. Thanks Angela.

How do I know if my APC rbc55 battery is bad?

Ordered and installed 2 new APC RBC55 batteries. Powered up. Battery indicator light still solid red. Digital display indicates failed battery. Let charge for 13 hours. Battery indicator light still solid red. Digital display indicates failed battery and runtime of 92 minutes.
