

How much energy does Nicaragua use?

According to the International Energy Agency, Nicaragua supplies around 60% of its total energy from renewable sources, including wind, solar and geothermal, with biomass - an often contested renewable - accounting for the largest share, at roughly 40% of total supply.

How much does solar cost in Nicaragua?

Solar obviously changed our bills, average is around \$10 per month instead of \$150. But even better is we don't notice the power outages anymore. I previously worked with the "best rated" Nicaraguan solar company and the workmanship and professionalism was not even close to Nicamisol's.

Does Nicaragua have geothermal power?

The Maribios Range is part of the Pacific "Ring of Fire" and contains several active volcanoes. The government estimates Nicaragua's geothermal potential to be 2,000 megawatts. Nicaragua's National Electric Transmission Company (Enatrel) seeks to transform the country's energy mix by focusing on renewable energy with its 2022-2037 expansion plan.
