

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

What are the benefits of a low-voltage AC-side cabinet integration?

Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss
Four-in-one Safety Design: "Predict, Prevent, Resist and Improve" Predict: AI-powered big data analytics for 8-hour advance fault prediction Prevent: High-precision detection provides 30-minute early warnings

Can the Arctic Bess survive -55c temperatures?

Extreme weather, including -55C temperatures, is something that the Arctic BESS is built to survive. Our cabinet and containerized batteries, ranging capacity from 60 kWh to 6 MWh and are made to meet specific requirements.

Meet the Nordic Energy Storage Stud Welding Machine - the Thor's hammer of industrial joining technology. As the global energy storage market balloons to \$33 billion annually [1], this ...

As the global demand for renewable energy integration grows, Swedish manufacturers are leading the charge with innovative energy storage solutions. This article explores how cutting ...

Nordic Advanced Energy Storage Cabinet Manufacturer
