

12 September, Cairo/Oslo: Scatec ASA has signed a USD denominated 25-year power purchase agreement (PPA) with Egyptian Electricity Transmission Company (EETC) for a 1 GW solar ...

Revac is among the largest companies in the treatment and recycling of waste of electrical and electrical products in Europe. Revac is currently building a solar park with 1,700 solar cells to ...

Fraunhofer Institute for Solar Energy Systems (Fraunhofer ISE) said that the lifecycle assessment for hydrogen technologies depends on hydrogen's role in the future ...

The Oslo Grid Energy Storage Project is rewriting the rules of renewable energy management - and doing it with Scandinavian flair. Let's unpack why this initiative matters to engineers, ...

In this report, we explore the conditions for Norway to engage in the production and use of solar (photovoltaic) PV technology, both nationally and globally. Based on in depth interviews and ...

Summary: Explore how distributed photovoltaic (PV) energy storage systems are transforming Bergen's renewable energy landscape. This article breaks down design considerations, ...

Norway's groundbreaking photovoltaic energy storage project is rewriting the rules of Arctic energy production, proving that even regions with extreme seasonal variations can harness ...

Overall, Norway's ambitious plans for electrification and transition to renewable energy sources have created a significant demand for energy storage solutions, including ...

Store Norske Energi AS has installed a PV system in the Svalbard archipelago, the last inhabited strip of land before the North Pole. The company told pv magazine that the ...

The vast majority of energy transition scenarios, including those made by the Intergovernmental Panel on Climate Change (IPCC) and the International Energy Agency (IEA), attribute a ...

Norway Photovoltaic Energy Storage Distribution Project
