

What is a lithium battery management system (BMS)?

Many people are familiar with a Battery Management System (BMS), which should be installed with every lithium battery. A BMS monitors the voltages of the individual lithium cells inside a battery and has the ability to shut everything down in an emergency. A BBMS, on the other hand, regulates the charging of the lithium batteries.

What are the features of Sako lithium ion batteries?

With features like long service life, lightweight design, and intelligent Battery Management Systems (BMS). SAKO provides various models of lithium-ion batteries, such as 48-volt lithium-ion batteries, 24v lithium batteries, 12-volt lithium batteries, etc. These batteries feature high density, small size, lightweight design, and long service life.

What are the different types of lithium ion batteries?

SAKO provides various models of lithium-ion batteries, such as 48-volt lithium-ion batteries, 24v lithium batteries, 12-volt lithium batteries, etc. These batteries feature high density, small size, lightweight design, and long service life. Whether for residential, commercial, or industrial applications.
