

# Photovoltaic 16-into-1 DC combiner box

What is shlx-pv16/1 PV combiner box bus?

SHLX-PV16/1 PV combiner box bus synthetic DC input of 16 PV components to 1 output. Each channel is with a fuse. Output side is equipped with lightning protection and circuit breaker. It greatly simplify input wiring of DC power distribution cabinet and inverter. Realize lightning protection, short circuit protection and grounding protection.

What is intelligent PV combiner box?

Intelligent PV combiner box is equipped with monitoring unit, then detect input current of each string, detect inside temperature, detect lightning protection status, detect circuit breaker status and summarize output voltage and so on. The product adopts outdoor wall mounted type, which adapt to the harsh environment.

What are the different types of PV combiner box?

PV combiner box divided into two types: intelligent box and non-intelligent box. Intelligent PV combiner box is equipped with monitoring unit, then detect input current of each string, detect inside temperature, detect lightning protection status, detect circuit breaker status and summarize output voltage and so on.

With 16 input strings and 400A output capacity, this industrial-grade unit features a robust metal enclosure (IP65/IK10) and comprehensive protection components for demanding high-voltage ...
