

Photovoltaic energy storage battery in Mozambique

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

Will Cuamba solar deliver clean power to the Mozambican grid?

Mike Scholey, Globeleq's CEO remarked: "We are extremely excited to now have Cuamba Solar officially delivering clean power to the Mozambican grid via EDM and supporting both the local economy and the Government's efforts to build more renewable power.

Why should you invest in the Cuamba solar and storage plant?

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district. Globeleq, Source Energia and EDM have all invested in this project - a public-private partnership that demonstrates the confidence of international investors in Mozambique.

What is Cuamba solar power plant?

"The Cuamba Solar Power Plant project aims to increase energy availability in the country through both public and private investments, with growing contribution from renewable energy sources; and addresses a strategic objective outlined in the Government's Five-Year Programme.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

This initiative aims to support decentralized utility solar photovoltaic (PV) and battery energy storage system (BESS) projects, to be implemented by Independent Power Producers ...

Solar energy storage systems aren't just technical solutions - they're catalysts for economic empowerment, healthcare access, and sustainable development. The question isn't whether ...

In July 2024, Mozambique's Ministry of Mineral Resources and Energy (MIREME) initiated a significant tender for the development of decentralized solar photovoltaic (PV) and battery ...

Photovoltaic energy storage battery in Mozambique

His Excellency Filipe Nyusi, President of the Republic of Mozambique said at the inauguration: "The Cuamba solar and storage plant will provide greater energy security and stability in this ...
