

# Photovoltaic module export trade

What is the export value of PV cells & modules?

According to the statistical data,<sup>1</sup> the export value of global PV cells and modules increased from approximately 54.7 billion USD to approximately 74.1 billion USD from 2012-2021, a growth of 35.5%, which was greater than that of global merchandise trade during the same period (20.3%).

How do international trade policies shape the global solar photovoltaic landscape?

International trade policies shape the global solar photovoltaic (PV) landscape through complex networks of tariffs, regulations, and bilateral agreements that significantly impact market dynamics and industry growth.

Is India a net importer or exporter of photovoltaic (PV) products?

India is making significant progress in transitioning from a net importer to a net exporter of photovoltaic (PV) products. In Fiscal Year (FY) 2024, Indian PV manufacturers exported approximately US\$2 billion worth of PV modules. The export value of PV modules from India increased by more than 23 times in just two years between FY2022 and FY2024.

Does India export photovoltaic modules?

The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which accounted for more than 97% of India's exports in both FY2023 and FY2024.

Which country imports the most PV modules to Europe?

In addition to exports to Asia, it is noteworthy that the United States of America stands out as the largest single Extra-European importer of European PV hardware. Table 3. The imported and exported value [EUR, millions] and the share [%] of PV modules and cells into Europe from third countries.

What data is included in the photovoltaic industry report?

This report includes summary data for the photovoltaic industry from annual and monthly respondents. Data include manufacturing, imports, and exports of modules in the United States and its territories. Summary data include volumes in peak kilowatts and average prices.

Photovoltaic (PV) cell plays crucial role to utilize the solar energy. The regional differences in the PV industry have created unbalanced flows of PV cells. This paper ...

We provide high-quality, leading-edge analysis of international trade issues to the President and the Congress. The Commission is a highly regarded forum for the adjudication ...

Historical Data and Forecast of Turkey Photovoltaic Market Revenues & Volume By Half-Cell PV Modules for the Period 2021 - 2031 Turkey Photovoltaic Import Export Trade Statistics

This paper, which is based on new trade theory with substitutes, examines how antidumping and countervailing policies (ACPs) from the EU and the USA impact Chinese ...

Let's cut through the jargon first - when we talk about solar photovoltaic panel exports, we're essentially discussing how these sunlight-catching rectangles travel from factories to foreign ...
