How do solar panels work in Portugal?

Any excess solar energy that is not used immediately can be fed back into the grid through Portugal's self-consumption scheme. Homeowners receive compensation for the surplus energy they supply. This means even if you're not at home during the day, your solar panels can still generate value by selling energy back to the grid.

How much does electricity cost in Portugal?

Learn more about solar battery storage.. As of 2024, the average electricity price in Portugal is around EUR0.23 per kWh including taxes (GPP). With an annual consumption of 7,000 kWh, a household could be paying EUR1,610 per year for electricity.

How do you use surplus energy in Portugal?

You may use the energy directly or feed the surplus back into the grid. However, you must prioritize self-consumption. Earnings from surplus energy sold to the grid typically range between 0.04EUR and 0.08EUR/kWh. If you're planning a full renovation of your home, consider exploring this guide on how to renovate a house in Portugal.

This total cost is heavily influenced by factors such as system size, panel type, and installation complexity. The prices can fluctuate based on specific project needs, local market ...
