

Power generation and silencer container price

Who makes generator silencers?

We manufacture power generator silencers for Kohler, Generac, PSI, General Motors (GM), Winco, Caterpillar, Cummins, John Deere, Perkins, MTU and Doosan Engines. Nett Generator Silencers are compatible with these brands and many more!

What is a generator silencer or muffler?

A generator silencer, also known as a generator muffler, is a device that reduces noise produced by engine exhaust. Installed on the exhaust line, it lowers decibel levels without impacting generator performance.

Can You Weld a silencer to a portable generator?

In most cases you can weld the adapter directly to the exhaust port. The Silent Rider's patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America. You can expect up to a 15% reduction on exhaust noise, with no loss in power and performance.

Will a bolt-on Silencer fit a portable generator?

If your exhaust outlet outside diameter is greater than 2-3/8 inches the bolt-on silencers will not fit. In most cases you can weld the adapter directly to the exhaust port. The Silent Rider's patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America.

Why should you install a generator exhaust silencer?

Installing a generator exhaust silencer helps businesses meet OSHA and municipal noise regulations. Noise reduction minimizes disruptions. In environments like hospitals, Datacenters, or airports, a quiet Generator ensures continued operation and communication.

Can a Silent Rider silence a portable generator?

The Silent Rider's patented technology has been adapted to silence your portable generator. We are the only custom silencer on the market and 100% made in America. You can expect up to a 15% reduction on exhaust noise, with no loss in power and performance. The silencer will make an unbearable noise more bearable.
