

On the afternoon of October 30th, the world's largest and most powerful all vanadium flow battery energy storage and peak shaving power station (100MW/400MWh) was connected to the grid ...

Flow batteries, a long-promised solution to the vicissitudes of renewable energy production, boast an outsize ratio of hype to actual performance. These batteries, which store ...

Despite the higher CapEx cost in contrast to lithium-ion batteries, flow batteries are expected to be used extensively for both front-of-the-meter and behind-the-meter applications in the next ...
