

Will NRRP support Romania's battery and solar photovoltaic manufacturing sectors?

The Ministry of Energy has recently announced a call for proposals to support Romania's battery and solar photovoltaic (PV) manufacturing sectors, worth EUR199 million and funded through the NRRP.

Is Romania back on the map of res investments?

The last three years put Romania back on the map of the RES investments with an unprecedented appetite from global investors accounting to more than 30 GW of projects under development, some being among the largest in Europe in terms of planned size. Author Zoltan Nagy-Bege, Energy Market Department Director Ciga Energy

Does Romania have a value chain?

While timid trends in the development of a value chain in Romania have been observed since 2010-2014, none of the 166 European companies producing various components and technologies necessary for the photovoltaic industry are based or operate in Romania, which is an economic and strategic disadvantage.

Substation and Electrical Works for the Corni Wind Park, with an installed capacity of 70 MW. Expansion of the 110/20 kV Cudalbi Substation. Photovoltaic Power Plant SP1 2.5MW. ...
