Can you sell solar energy back to the grid?

This two-way relationship between your property and the electrical grid makes selling solar power possible. Here's how it works: The most common method for selling solar energy back to the grid is through net metering. Simply put, net metering allows your electric meter to "run backward" when you produce more energy than you use.

Are solar panels a good investment?

Solar panels offer more than just a way to reduce your carbon footprint--they can become a revenue-generating asset for your home or business. When you learn how to sell solar energy back to grid systems, you can turn excess electricity into actual income or significant bill credits.

How much does a 370 watt solar panel cost?

The member recently posted 425.5 kilowatts of REC 370 Watt, 72-cell monocrystalline solar panels for sale. The lot is new with warranty. The sale price is \$0.390 per watt. For the EnergyBin membership level, we'll apply our most popular plan, which is our Basic Membership valued at \$1,500.
