How big is the European solar inverter market?

The European solar inverter market is set to grow from USD 2.85 billion in 2024 to USD 3.66 billion by 2029, with a growth rate of 5.06% annually. This growth is driven by government incentives, investments in solar energy, and a focus on reducing carbon emissions. Germany is the largest market, followed by the UK and France.

Who makes the most solar PV inverters in the world?

In 2023, the global shipment of solar PV inverters reached 536 GWac, with Chinese solar inverter manufacturers responsible for half of these shipments. Companies like Huawei, Sungrow, and Ginlong Solis dominate the top ranks, securing more than 50% of the global market share.

Which countries use the most solar inverters?

Germany is the largest market, followed by the UK and France. Central inverters for large solar projects are expected to dominate, while micro inverters for homes are also growing. Hybrid inverters, which combine solar and battery storage, are gaining popularity as more people seek energy independence.

Does Schneider Electric offer solar inverters?

Schneider Electric offers a variety of inverters suited for solar systems, including models for both single-phase and three-phase setups. The inverters are integrated with energy management solutions such as the Wiser Home app, which allows users to monitor and manage their energy use effectively.

Who are ABB solar inverters?

ABB, headquartered in Switzerland, is a multinational corporation with a strong presence in the renewable energy sector, particularly in solar power solutions. ABB has been developing innovative and reliable solar inverters for both residential and industrial applications for over a decade.

The synergies within China's solar supply chain make it easier for European buyers to source various components and technologies, including inverters, from a single, reliable source.
