

Solar Power Bank 500W 24V

What is a portable power bank with solar plug outlet?

This portable power bank with solar plug outlet is suitable for home use to keep your home security system, light and phone charged in emergency blackout. It's a must-have emergency supply. It's also a reliable backup power battery for your office devices such as router, laptop and etc.

Can I use a 500 watt power station with a battery?

Warm Tips: 500W is the output power, NOT the battery capacity. Please do not use this power station to power devices with rated power more than 500 watts. Do not use the adapter with input voltage over 23V to charge it, which may damage the battery. Please use and recharge this power station at least once every three months.

How does ApowKing solar power generator work?

ApowKing solar power generator keeps you going with a tri-mode front flashlight (light-strobe-SOS) to illuminate your way through the darkness, and provide portable power for you when you need portable outlet the most.

Can ApowKing HP500 electric generator be used with more than 500W?

ApowKing HP500 electric generator can be used for products with power less than 500W and is not recommended heating products with more than 200W. If used with devices more than 500W, the battery generator will immediately stop working and enter into the protection mode. Please use the low power to continue the restart. 2.
