

Solar panels top mounted photovoltaic panels

What is a solar panel mount?

Solar panel mounts secure solar panels either to your roof or on the ground. Solar panel mounts typically account for 10% of the total solar panel installation cost. IronRidge and Unirac are the best options for roof and ground mount solar systems.

What is the best solar array mounting solution?

Sometimes the best and most adjustable solar array mounting solution is a Top-of-Pole mount. Our lines of Top-of-Pole Mounts are high-quality structures with heavy steel mounting sleeves and elevation pivots. The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well.

Can solar panels be mounted on the ground?

There are many options for mounting your solar array on the ground. Top of pole mounts are a great option. Some top of pole mounts provide an adjustable option, allowing you to optimize the angle of the solar panels to match the seasonal angle of the sun. Pole mounting can be a more flexible option than roof mounting depending on the location.

What is a DIY roof mount solar panel system?

DIY roof mount solar panel systems are solar panel kits designed for installation on rooftops. They make use of your home's rafters to support the weight of the solar array. Shop our selection of DIY roof mount solar panel kits for both grid-tied and off-grid properties. Roof mount systems are the standard choice for most home solar installations due to their convenience and cost-effectiveness.

What is a top-of-pole mount solar racking system?

Top-of-pole mounts offer some of the best adaptability and versatility of any solar racking system. They can add sustainable power generation to all types of properties, including residential, commercial, agricultural, industrial, urban, and remote locations. Learn more about these and other top-of-pole mount use cases.

What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs. They have equally great options for flat roofs and ground mounts, as well.
