

Sudan solar energy manufacturer

Why should you choose a solar energy system in Sudan?

We focus on underserved and conflict-affected regions across Sudan, striving to foster long-term growth and stability. Tailored solar energy systems provide reliable power, reduce electricity costs, and promote environmental sustainability, designed for homeowners seeking stable and independent energy solutions.

Does Sudan have solar energy?

Solar energy has the greatest potential for use in Sudan compared to other forms of RE. Sudan possesses an average annual radiation range of 436 to 639 W/m² per year, which exceeds the annual global average. The period of solar radiation in the country is between 8.5 and 11 hours per day.

Are solar power generators a problem in Sudan?

An economic comparison between three types of electricity generators; stand-alone PV modules (50 Wp), two imported gen-sets (0.5, 2.4 kW), and a small mini-grid system (313 kW peak) proved challenging in adopting PV systems in Sudan (Dongola and Northern Kurdufan).

Who is JNTECH solar?

JNTECH offers a wide range of solar solutions, including home and office systems, solar air conditioning systems, solar pumps for agriculture, and other related products. As the leading Sudan solar company, Alramah Solar has established offices in Port Sudan to provide advanced solar systems tailored to meet the specific needs of Sudan.

Sudan, with its abundant sunshine and vast untapped solar potential, is poised to make significant strides in solar energy development. In recent years, the country has been ...

Dongguan ZWAYN New Energy Co., Ltd was established in 2011, which is a clean and green energy manufacturer factory of lithium batteries for solar, telecom base, EV, scooter, golf cart, ...
