

For wind and solar power plants to reach their full potential, they need storage systems. A Swiss start-up is introducing a gravity-based battery solution. It is an extraordinary ...

Flexbase Group has broken ground on an 800 MW/1.6 GWh redox flow battery project in Laufenburg, Switzerland, in what could become one of Europe's largest flow storage ...

With 60% of its electricity already coming from hydropower, the country is now blending old-school reservoirs with futuristic battery tech. Think of it as a "Swiss Army knife" ...

The largest tidal flat photovoltaic energy storage station in China, constructed by Huadian Laizhou Power Generation Co Ltd. on the salt-alkali tidal flats of the shores of Bohai ...

The latest amendment removes some of the bureaucratic hoops companies have to jump through when constructing large-scale photovoltaic power stations with annual outputs ...

The Fuyang Base Project is the first batch of national large-scale storage base projects in Anhui Province and the Yangtze River Delta region, integrating PV, wind power, ...

With this large-scale storage system, we are making an important contribution to implementing Switzerland's Energy Strategy 2050. The country is pursuing the goal of transitioning its ...

Swiss Photovoltaic Energy Storage Power Station Project
