

# The entire roof is filled with photovoltaic panels

What is solar full roof?

Embrace the synergy of style and sustainability with Solar Full Roof, a 2in1 integrated solar roof. Seamlessly integrating advanced solar technology into the architecture of your home, this solution transcends conventional rooftop installations.

How to replace a roof with solar panels?

**The Removal and Reinstallation Process** Panel removal: The primary step in replacing a roof that has existing solar panels involves the removal of the panels. This is a delicate task that should be handled by professionals to avoid damage to the panels or the electrical system.

Can a solar full roof fit a sloped roof?

Absolutely, if your roof is sloped with a minimum pitch of 18 degrees. The Solar Full Roof is designed to integrate seamlessly with various architectural styles. Whether you're looking for a complete solar roof or a blend of solar panels with your existing roofing material, our system can be tailored to fit.

Can a south-facing roof accommodate solar panels?

South-facing roofs with a slope between 15 and 40 degrees often give the most optimal performance. However, other orientations and slopes can still be suitable, and a solar panel installer can help guide you here. It's essential to assess if your current roof can efficiently accommodate solar panels or if modifications are necessary.

How long does a solar full roof take to install?

Experience premium solar roofing without the premium price. Blending with dummy modules ensures a uniformly sleek look. On average, a Solar Full Roof can be installed within 2 days. Compared to traditional rooftop solar panel solutions, Solarstone's 2-in-1 solar roof acts as roofing material itself, resulting in a modern and uniform-looking roof.

Can you install solar panels on a new roof?

**Roofing work:** After the panels are safely removed, roofing work can proceed as it would on any roof without solar panels. It's important to ensure that the new roof is compatible with solar panel reinstallation. **Panel reinstallation:** Once the roof work is complete, the solar panels need to be reinstalled.
