

The first batch of Czech energy storage projects

Where is the largest battery storage facility in the Czech Republic?

Construction of a facility that will include the largest battery storage facility in the Czech Republic and gas combustion turbines began at the end of March near Vranany in the Mělník region. The investor is the Czech energy group Decc.

Will a battery storage system help Czech companies achieve net zero?

The high penetration of renewable generation projects in the region could deliver a large amount of clean energy and really accelerate the journey to net zero, but at the moment Czech companies are not in a position to reap the full benefits of solar and other renewable energy sources. To do so, battery storage will be essential.

How has the energy crisis impacted the Czech Republic?

With coal dominating the energy mix, the Czech Republic has traditionally enjoyed low electricity prices and a steady supply of domestic fuel. However, the recent energy crisis, together with pressure from stakeholders and regulatory bodies to decarbonise, has triggered an unprecedented shift in the country's energy market.

Why are Czech businesses investing in renewable projects without subsidies?

The subsidy increases to cover up to 75% of costs for community projects. But what we noticed at Wattstor is that Czech businesses are investing in renewable projects even in the absence of subsidies, because they have realised the strong business case for generating clean energy on site.

The European Commission has given the go-ahead to a scheme in Czechia that will support the deployment of 1.5GWh of energy storage projects. Unlike other storage conferences, proceeds ...

>Inclusion of Energy Storage into the Energy Act, including the establishment of new business activity in the energy sector with its own special license >Usage of energy storage as an ...

12 hours ago; Two months after Prime Minister Mark Carney's government passed its major projects legislation, the Liberals announced Thursday the first five proposals that are being ...

Recently, the General Department of the National Energy Administration issued a notice on carrying out the pilot work of technological breakthroughs and industrialisation of green liquid ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

ALMERE, THE NETHERLANDS - At solar farm Prakse, Solar Global and Alfen opened the first battery energy storage system (BESS) in Czech Republic. The battery system has a capacity ...
