

## The inverter is marked with 50Hz and 60Hz

Do not run anything with a transformer designed for 60 Hz at 50 Hz. The transformer core will saturate. Sounds like you figured that out. Clocks that use the 60 Hz for timing will run ...

The method I used to obtain either 50Hz or 60Hz from 60Hz or 50Hz (respectively) is somewhat unusual, but it works perfectly and synchronises the "new" frequency directly from the original ...

One of our most popular AC power supplies is the Blue Whale BWFCM series solid state/static frequency converter, which is designed to convert AC power from 50Hz to 60Hz or vice versa, ...

When the EE's were originally setting up the testing system, my proposal was a quad stack of OutBack gear -- a twin stack of 50Hz grid-interactive inverters, and a twin stack ...
