

# Timor-Leste 2025 Energy Storage Project

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage System (BESS).

Is there a 20-year power sector development plan for Timor-Leste?

This study report presents the results of a 20-year power sector development plan for Timor-Leste (East Timor). Keywords: adb projects,power sector,power sector development plan,electrification program,generation and transmission,rural electrification,expenditure program,technical assistance,timor leste.

Why should Timor-Leste invest in solar & storage infrastructure?

José added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

What is the project regarding in Timor-Leste?

The project is a 3-year study to prepare a wind map of the most promising locations and to prepare a feasibility study of economically viable grid-connected and isolated wind power potential in Timor-Leste.

What is Timor-Leste's Greater Sunrise Project?

Timor-Leste is on the brink of significant economic transformation through the development of the Greater Sunrise project. Located approximately 231 kilometres from Beaufort, this strategic initiative aims to harness substantial natural gas and condensate resources to fuel the nation's growth and stability.

The Australian company developing the Kuda-Tasi and Jahal oil project offshore Timor-Leste expects to reveal imminently an alliance agreement and an acceleration of the front-end ...

3 days ago; The selection of a floating production, storage and offloading vessel is at an advanced stage; for the proposed Kuda-Tasi and Jahal offshore oil development in Timor ...

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, marking a major milestone in the country's ...

# Timor-Leste 2025 Energy Storage Project

Dili, April 7, 2025: Timor-Leste - A five-day technical training focusing on hybrid renewable energy systems, grid integration and advanced energy management kicked off today in Dili, Timor ...

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a...

in Timor-Leste, the photovoltaic units (or solar project) implementation project is specially directed for the families that live in remote areas, where difficulties still exist in the national energy ...

The project began with consultations with the Ministry of Foreign Affairs and Trade (MFAT) and the Government of Timor-Leste (GoTL) to clarify objectives and collect essential data. The ...

The visit provided an opportunity to directly observe the installation of a hybrid photovoltaic (solar) system - a critical development designed to ensure reliable, round-the ...

The Suai Supply Base, a strategic infrastructure project located in the southern coast of Timor-Leste, is designed to support offshore Oil and Gas activities by providing essential services ...
