

Tonga outdoor containerized power generation

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.

How much energy does Tonga generate?

It accounts for 90 percent of its electricity generation. The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030.

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

What is a solar farm & how can it help Tonga?

Producing energy since August this year, and providing power for up to 10,336 households, the Solar Farm is helping The Government of Tonga pursue its National Energy Roadmap plans to see up to 70% of Tongatapu's electricity generation sourced from renewables by the end of 2025.

Can Australia help secure Tonga's outer island energy needs?

Australia also has a long history of engagement in relation to helping secure Tonga's outer island energy needs. In the early 2000s, Australia funded the Ha'apai Outer Islands Electrification project (HOIEP), which involved the installation of diesel-powered generators and electrical reticulation on four islands in the Ha'apai group.

How did the OIREP project impact Tonga?

The project achieved its proposed impact, in terms of helping Tonga reduce its dependence on imported fossil fuel for power generation with OIREP assets estimated to have reduced diesel usage by 0.5 million litres annually. Central to the project outcome was the provision of on-grid and off-grid generation solar power at reduced cost.

While stabilising the grid, this project will particularly address the intermittency of variable renewable energy sources, thus laying the foundation for private sector investments in ...

6Wresearch actively monitors the Tonga Captive Power Generation Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, ...

Tonga outdoor containerized power generation

This review found OIREP to be of direct relevance to the needs and ambitions of Tonga given the importance the government and people place on climate adaptation measures and enhancing ...

We currently have a fully functioning Independent Power Producer solar system from Singyes Solar, with a capacity of 2MW. Singyes owns, generates and maintains this solar plant. Once ...

Tonga Energy Road Map 2010 launched as a 10-year plan focused on reducing Tonga's vulnerability to oil price fluctuations and improving access to modern energy services, and ...
