

Uganda's energy storage power station takes the lead

The Government of Uganda has approved the construction of a 100-megawatt solar photovoltaic plant with a 250 MWh battery energy storage system in Kapeeka. The project will ...

Uganda has approved the development of a major utility-scale solar-plus-storage project: a 100-megawatt-peak (MWp) photovoltaic (PV) plant paired with 250 megawatt-hours ...

The project, led by EA Astrovolt, the East African arm of U.S.-based Energy America, is part of a wider national goal to integrate more than one gigawatt of solar-plus ...

Uganda's latest push in energy storage isn't just about batteries bigger than your fridge; it's about keeping lights on during Netflix binge nights and powering safari lodges without scaring the ...

The facility, to be built in Kapeeka, marks the first phase of Uganda's ambitious plan to deploy over 1 gigawatt (GW) of solar and battery storage capacity nationwide. The ...

EA Astrovolt is Energy America's dedicated East African development platform, headquartered in Nairobi, Kenya. It leads regional execution of solar and battery energy storage projects with a ...
