

Ukrainian communication base station power outage

Are new batteries coming to Ukraine's base stations in 2022?

Kostyantyn Sotnikov, who heads network maintenance at Lifecell, said more than half its base stations across Ukraine had been fitted with new lithium batteries since 2022, and hundreds were being connected to generators. Two other operators - Kyivstar and Vodafone - said they had made similar improvements.

Why did Ukraine's Internet Go Down?

With the Russian war effort faltering, the Kremlin has stepped up its missile and artillery attacks on Ukraine's energy infrastructure, and that has resulted in a series of localized internet outages, according to findings released by the security company Cloudflare on Wednesday.

How has Russia impacted Ukraine's Internet access?

On March 9, Russian attacks on Ukrainian energy and distribution networks caused disruptions in internet access in Kharkiv that lasted nearly two days. The shift in Russian targeting to more aggressively focus on energy infrastructure has had cascading effects on Ukraine's internet access.

Will Ukraine's energy crisis get worse in winter?

Moscow's renewed assault on power grids and transmission lines in the last three months has knocked out about half Ukraine's available generation capacity, causing daily blackouts of up to 12 hours in major cities including the capital Kyiv. Once winter boosts energy use, the situation will only get worse.

Why is Ukraine rushing to buy more generators & batteries?

All are rushing to buy more generators and batteries for Ukraine's tens of thousands of stations but say that the longer the blackout, the more complicated the job of maintaining full coverage.

Why is the Kremlin stepping up attacks on Ukrainian power plants?

With its war effort faltering, the Kremlin is stepping up its attacks on Ukrainian power plants, resulting in cascading internet failures. Workers repair infrastructure in a power plant that was damaged by a Russian air attack in October, on November 04, 2022 in Kyiv Oblast, Ukraine. (Ed Ram/Getty Images)
