

Does Vatican City have solar power?

Yes. Vatican City has joined Albania,Bhutan,Nepal,Paraguay,Iceland,Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

Where is the new Vatican Radio system being built?

The construction will take place on Vatican property approximately 11 miles from Rome,in the area of Santa Maria di Galeria. The property is currently used for broadcasting Vatican Radio. The system will combine renewable electricity production with the needs of the underlying agricultural land.

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to "ensure,not only the power supply of the radio station existing there,but also the complete energy support of Vatican City State," he wrote. Fast forward to 2025,and the project is completed.
