

# Where are the large-scale 5G base stations in Samoa

Will Samoa get 5G?

Samoa customers with compatible 5G devices in and around the Levili Data Centre, FMFMII, NFP building, Tatte building and Frankie mall will be among the first in Samoa to experience the power of 5G. Digicel Samoa CEO, Anthony Seuseu, said; "We are thrilled to be the first mobile network in Samoa to go live with 5G."

What are Digicel Samoa's 5G upgrades?

The upgrades will start with cell tower sites in Apia CBD, to enable Digicel Samoa to introduce 5G capability for its customers, as well as maintain its existing 4G network.

Why is Digicel Samoa partnering with Digicel?

"Digicel Samoa is dedicated to delivering high-speed connectivity and ensuring network security for our customers. This collaboration underscores our commitment to maintaining the integrity of telecommunications infrastructure while advancing 5G technology," added Anthony.

How fast is 5G?

Initial test results at the new 5G sites boasted average speeds of a staggering 550-600Mbps, with the full potential reaching up to 1Gbps (speeds may vary due to factors such as location, distance from the mobile tower, local conditions, concurrent users, hardware and software configuration and download/upload destination).

Digicel Samoa has officially kicked off its rollout of 5G services with five 5G sites going live in the Apia CBD. The sites cover the Levili Data Centre, FMFMII, NFP building, Tatte building and ...

Today, with over 3.7 million 5G base stations installed nationwide, the large-scale application of 5G in China has greatly benefited both individuals and businesses, bringing ...

Digicel Samoa announced on Monday that it has officially kicked off its rollout of 5G services with five 5G sites going live in the Apia CBD. The sites cover the Levili Data Centre, ...

In terms of 5G energy storage participation in key technologies for grid regulation, literature [4] introduces destructive digital energy storage (DES) technology and studies its application in ...

In the global 5G technology competition, China leads the world with 4.1 million 5G base stations, which not only marks China's leading position in the 5G field, but also a ...

With the large-scale connection of 5G base stations (BSs) to the distribution networks (DNs), 5G BSs are
